

Please do not expand the LPFM service in the United States. If an LPFM station takes priority over current FM translator services and we lose K-LOVE in Colorado, it would be a travesty. K-LOVE serves as a calming, family oriented, commercial-free radio station in Colorado. To my knowledge, there is only one other Christian radio station in the Denver area and already that station can not be heard throughout half of the metro area because of broadcasting difficulty. If K-LOVE were to be displaced, the Denver area would be greatly lacking in a positive, family-oriented radio station and the outreach programs supported by K-LOVE in the area would disappear. I think Denver has a need for K-LOVE, not just the radio station (which, in itself, does great things and makes a difference in people's lives) but also its reach to the public through goodwill services. Please don't allow K-LOVE to disappear by expanding LPFM service. Thank you for your consideration.
